

Evolution

As President of the Emily Carr Institute Alumni Society, I am very proud to be a part of such an historical event as the 80th Anniversary Show, Evolution.

I sincerely thank all the dedicated volunteers in the ECI Alumni Society, and the helpful staff at ECI for making this possible. After many brainstorming sessions regarding the direction of the newly reborn Alumni Society, the Board decided that we could benefit our talented alumni with a major group show. The conception of this show happened just a few months ago, and ever so quickly it grew into a showcase celebrating the plethora of creativity connected by the strong branches of ECI. Evolution is a living history of the dynamic artistic community fostered by ECI. The seeds of our diverse, gifted and multi-talented artists have been planted world wide, and now stand tall and strong all across the globe. It is my hope that you are touched by the strength of our unique energy resource, the Emily Carr Institute Alumni.
